

ROSCO ColorCoat

A durable water borne modified acrylic enamel, which provides superior adhesion and abrasion resistance. For use on most interior and exterior surfaces where maximum durability is required. Excellent for use over primed or previously painted metal, wood and concrete. Recommended for use on floors and scenic elements that endure heavy traffic and excessive handling.

- **High Gloss**
- **Interior/Exterior Use**
- **Excellent Color Retention**
- **Extremely Durable**
- **Water Base**

SUGGESTED USE: ColorCoat is ideal for most scenic materials both interior and exterior. Use on primed fiberglass, steel, wood, aluminum and masonite. Clear ColorCoat is an excellent sealer over all Rosco paints.

APPLICATION: Apply by brush, roller or spray. Surface should be clean, dry and free of dust and grease. Glossy areas should be sanded lightly prior to application. Thinning is not recommended.

FINISH: High Gloss.

BINDER TYPE: Modified Acrylic.

SOLVENT: Water.

COVERAGE: Approximately 300-350 square feet per gallon.

DRYING TIME: Dries to the touch in 1 hour, may be recoated in 4 hours.

CLEAN-UP: Soap and warm water.

PACKAGING: Available in 1 quart and 1 gallon containers.
