## CERTIFICATE OF FLAME RETARDANCY

Rose Brand is in business in New York, New York, with headquarters in Secaucus, New Jersey, and additional offices in Sun Valley, California, and in Orlando, Florida.

The fabric or substrate described below meets the minimum requirements of flame resistance established by the following test:

NFPA 701 (2010 ed.), test method #1

Mad with non-combustible elements, this **IFR** material is inherently and permanently flame resistant for the life of the fabric, without the addition of flame retardant chemicals. This flame resistance will **NOT** wash out. Rose Brand, however, recommends annual testing of the material using the NFPA 705 Field Test Method for Textiles, as accumulations of airborne dust and oils may diminish the flame resistance of the material.

**Owner/Purchaser Name:** sample only

**Purchaser PO #:** to be determined

**Purchaser Project/Event Name:** t.b.d.
