Rose Brand Screen Goo

How Much Goo Do You Need?

The quantity of Screen Goo required for your specific project will depend on:

1. How large a projection screen you'd like to have
2. How you apply the product (i.e., rolling vs. spraying)

The two tables below provide 2 different ways of determining how much Screen Goo you'll need for your project. Table A provides you with a sense of how large an area you can cover with a given quantity of Screen Goo, depending on how you apply the product. Table B below enables you to start with the screen dimensions that you desire and then determine how much Goo you'll need.
