

# FF4 MULTI-PURPOSE LIQUID or POWDER

## Fabric Flameproofing #4

This pre-mixed chemical is specifically designed to treat natural and synthetic fibers as well as blends. Use sparingly on cotton, rayon, silk, wool, jute and ramie, as well as polyester and metallic fabrics. Treats hay, painted muslin, drops, cardboard and paper.

ASTM E-84 Class B rating for wood.

California State Fire Marshal Registered Flame  
Retardant C38-04

Avoid eye contact. If contact occurs, immediately flush eyes with large amounts of water. Get immediately medical attention.  
Keep out of the reach of children.

### Directions

Mix the powder with water according to instructions on the package.

One quart (liquid) will treat approximately 35-50 square feet of substrate.

Application can be done via immersion, spraying, or painting (brush or roller).

If spraying or painting, apply until thoroughly damp, but not dripping.

Before using, always test a small spot for color fastness and a small sample for flame retardancy.

As the use (application) of this product is beyond our control, Rose Brand makes no warranty of any kind, expressed or implied, as to the effectiveness of such use (including damage to property) or the results to be obtained. We guarantee
