

PROJECTION FABRIC SPECIFICATIONS

FABRIC: GLOW UP
SKU: GLOW0001

DESCRIPTION: This 16' – 4" seamless, inherently fire retardant, 100% polyester fabric has a soft hand and smooth texture. Use it as a projection screen, a cyc or bounce, or as an SEG print for exhibits. A rear applied PU coating provides excellent light diffusion to eliminate hot spots and maximize gain when used as a rear projection surface. Glow Up has a stable construction with minimal stretch but will hang out under tension to reduce wrinkles. Can be soft folded for shipping and storage. Avoid long term folded storage to avoid hard creasing.

Colors: White
Width: 197" (505cm)
Roll Length: 55 yrd (50M)
Weight: 170 GSM
Finish: Matte White / PU Coated

Content: 100% Polyester
Construction: Warp Knit
Thickness: 0.34mm (340um)
Stretch: Warp: 0.7% Weft 0.9%
FR: NFPA 701, CA Title 19, B-s1,d0, E N 13501-1, ASTM E84 Class A,

Front Projection		Rear Projection	
Gain @ 90°:	0.95	Gain @ 90°:	0.50
Viewing Angle:	>175°	Viewing Angle:	>175°

Steam to remove wrinkles. Stable, minimal stretch. Use with coated side AWAY from audience.

Best for rear projection, No hotspotting
