

# Certificate of Conformance

## ReVive™ 15oz IFR Velour

ReVive™ 15oz IFR Velour is composed of 70% recycled synthetic fiber made from post-consumer plastic bottles. Each yard of ReVive™ 15oz IFR Velour diverts 6 bottles from the waste stream and landfills. The specification of ReVive™ 15oz IFR Velour has a measurable and meaningful impact on reducing waste and minimizing damage to the environment.

This document certifies that count of recycled bottles used in the production of the draperies and textiles ordered as follows:

---

**Customer:** To be determined  
**Date:** pending  
**Sales Order No:** pending  
**Line # / Item:** 1 / 15 oz ReVive 62 in IFR Black  
**Qty:** 30 yards
