- ◆ Dimensionally stable under hot stage lights

Red

White

Black

Dazzling performer

- ◆ Hi-Gloss finish gives mirror like shine
- ◆ Ideal for fashion runways
- ◆ Great for product launches
- ◆ Perfect choice for award shows
- ◆ Enhances TV and commercial spots

Hi-Shine was developed as a result of years of research into the perfect wet-look floor. Many wet-look finish floors are thick, heavy and not very scratch-resistant. When customers requested a lighter, easier to install hi-gloss floor, Hi-Shine was born. The colors available cover the range of most basic color schemes.

Hi-Shine is a roll-out floor for television, commercials, movie sets, operas, product launches, and fashion runways to name just a few. Hi-Shine is also requested for awards dinners and celebrity performances which require a quick load-in and breakdown. It is a quick, simple (and very economical) answer for photo shoots where you need a smooth, shiny floor which requires speed of installation. Designers ask for Hi-Shine consistently to produce effects like water, fire, pavement, etc.

Hi-Shine is just one of a unique range of flooring we produce. Be sure to ask about the full range of floors for Dance, Performing Arts, Theatre, Opera, Shows and Concerts, TV/Film Studios, Exhibitions and Displays.

PLEASE NOTE: The colors shown on this datasheet are as exact as the printing processes will allow. We recommend that colors are judged and chosen from actual sample material, rather than printed representations depicted herein.

SPECIFICATIONS AND CONSTRUCTION

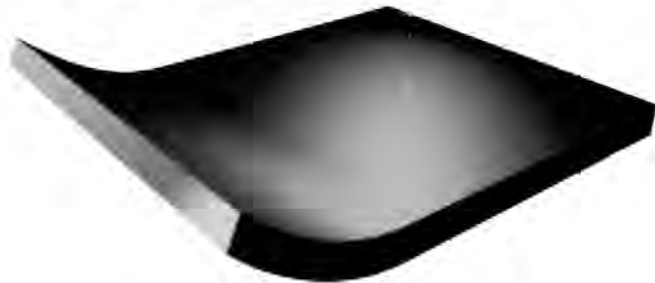

Thickness 0.06"/1.5mm

Roll Length 65.7'/20m

Roll Width 59"/1.5m

Weight 3.6 lbs/yd²

Weight 1.96 kg/m²

- Laminated hard polymer surface
- PVC vinyl base
