The rearfold carrier is a EEET0006 (TRA0601) two wheeled carrier fitted with a EEET0012 (TRA8009) accessory and comes pre-assembled. The rearfold tag causes the curtain or cloth to travel flat as it moves offstage. An image or a pattern can remain visible as it disappears offstage (refer to our cording diagrams for information on cording this effect). The rearfold only works on straight UniBeam and UniTrack systems. Spacing is usually at 1 ft (300 mm) centres along the curtain.
